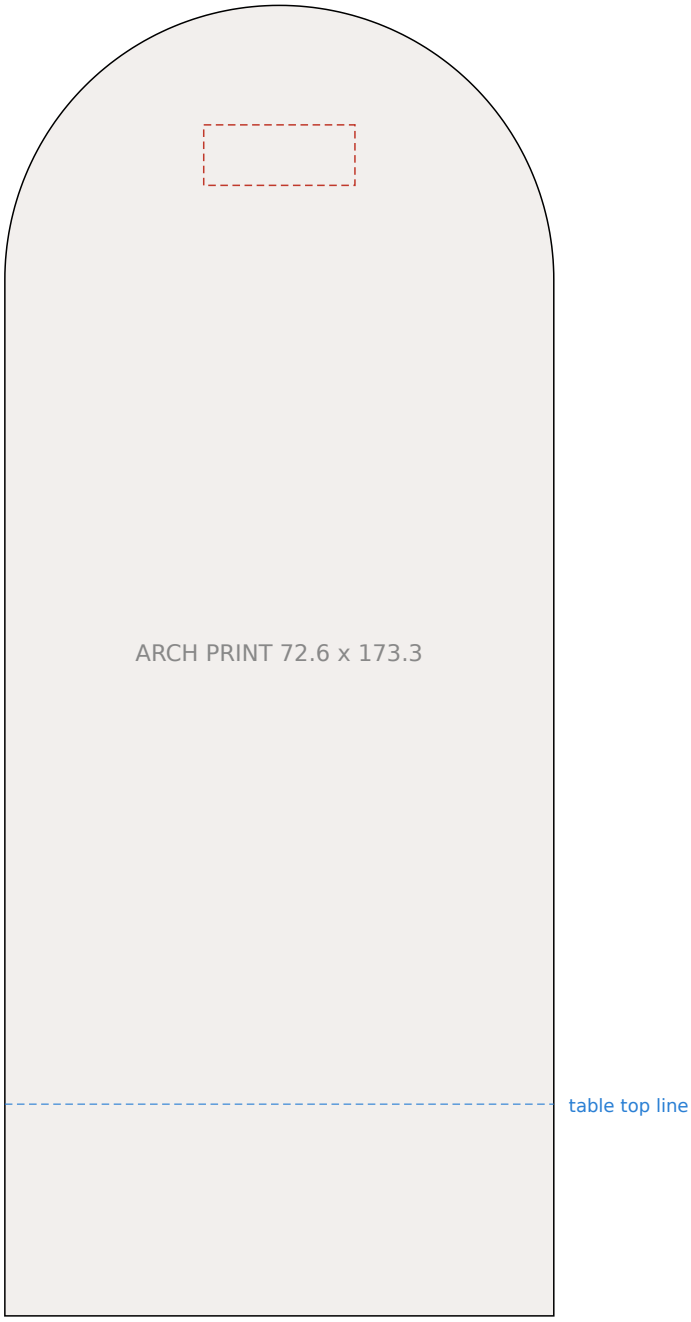
Arch portrait print (1 per order)

Cut on the solid line.

50 mm test bar

How to use

1. Make the artwork 72.6 x 173.3 mm: marble background, gold veins, customer photo (cut-out).
2. Print on photo paper, cut on the solid line, glue onto the arch backer inside the raised border.
3. The dashed box marks the 3D-printed name plate: keep faces and text out of it.
4. Bottom 28 mm are hidden behind the coffee table: keep the customer's face above that line.



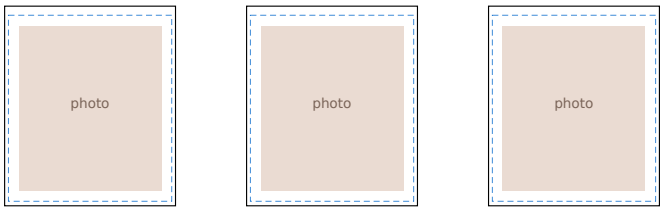
Store Versile room frame Rev C. Print at 100 % (actual size). Check: the 50 mm test bar must measure 50 mm.

Photo-frame inserts (8 photos + 1 quote per order)

50 mm test bar

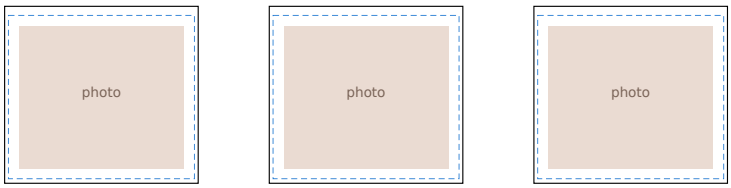
Solid line = cut line (slides into the frame from the top). Blue dashed = visible window. Put the photo inside the window, leaving a 1.4 mm white mat like the reference. Photo paper max 0.3 mm thick.

Small portrait 24 x 27: insert 22.6 x 26.4 mm, 3 per order (F1, F2, F3 (shelves))



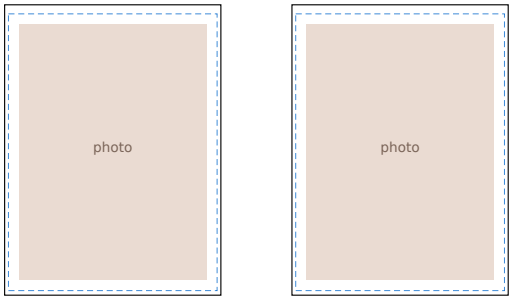
insert 1 insert 2 insert 3

Small landscape 27 x 24: insert 25.6 x 23.4 mm, 3 per order (F7, F8, F9 (shelf unit))



insert 1 insert 2 insert 3

Large portrait 30 x 39: insert 28.6 x 38.4 mm, 2 per order (F4, F5 (wall))



insert 1 insert 2

Quote plaque (small portrait frame)

quote insert
